## **Department of Zoology**

### **Learning outcomes**

- LO<sub>1</sub> Students develop advanced knowledge relevant to Zoology
- LO<sub>2</sub> Students will better understand about useful and harmful animals and their interactions with the environment
- LO<sub>3</sub> Students are exposed to wide range of animal groups both living and extinct
- LO<sub>4</sub> Helps the students to document 'wide range of solutions' that animals have evolved to deal with their biotic and abiotic environment
- LO<sub>5</sub> Learning zoology helps to acquire practical skills leading to research both in the laboratory and at the fields
- LO<sub>6</sub> Enable the students to undertake a quantitative and qualitative approach to analyse and interpret the data gathered
- LO<sub>7</sub> To foster the development of students as critical, mature and independent individuals
- LO<sub>8</sub> To enhance student's employability particularly for a career in Zoology and for relevant post-graduate study
