DEPARTMENT OF POLITICAL SCIENCE

OBJECTIVES OF THE DEPARTMENT

1. To inculcate a sense of civic responsibility among the students.
2. To motivate the students and the people about our Constitution, its ideals and rights.
3. To make the students to understand Local, National and International Problems.
4. To make the students to understand democratic values.
5. To find out ways and means for the establishment of ideal Political System.

The Department has set these objectives because:

1. As a nation-building measure, teaching civic responsibilities in every educational institution is necessary as these cannot be inculcated in our students unless these are brought into their minds and living process through teaching and education.
2. The rural students are comparatively ignorant of the working of the complicated mechanism of modern Constitutions just as they are incapable of understanding the complicated mechanism of a technological device. That is why this objective is designed to meet the requirements of the students.
3. The third objective is designed to meet the requirements of the graduate level students to understand Local, National and International political phenomenon.
4. The fourth objective is designed in order to imbibe democratic values in the minds of young students.
5. The fifth objective is designed to meet the requirements of the graduate level students to study the shape of political institutions as they obtain and operate at present times.
